Mobility - The Best Street Works Solution

Need a system installed fast?

Our team of installers and applicators are on call 24/7. With top quality and qualified contractors we can get your scheme off the ground and completed quickly and for a fixed cost.

Want a better solution?

With low overheads, and independent of any manufacturer, we can install or construct any ITS or traffic scheme at a better cost with customer satisfaction guaranteed.

Why choose us?

Independent from any manufacturers, installing the best equipment and applying the latest products enhances our reputation in the industry. Installing traffic signal equipment to removing graffiti, we at Traffic Solutions can offer any practical applications to complete all traffic schemes.

Installing Excellence

Providing first class equipment is key to our success. But installing it professionally enables us to offer a complete guarantee and full no hassle service to any client.

Considerable time and money is wasted by clients dealing with multiple suppliers and installers. Time management is important to our clients, which is why we offer a project management service alongside all our installation and application schemes.

Offering supply, installation, testing, validation and project management, gives our clients the satisfaction of an upfront agreed cost and timescale, leaving them to progress on their other important tasks at hand. Installation and maintenance of:

- * ANPR, speed cameras, survey cameras
- * In station equipment and recording devices
- * Traffic signal equipment
- * Magnetometers and induction loops
- * VMS, SMS and static signs

TotalSignals totalsignals

Our TotalSignals package offers our customers a complete hassle free design & build option. We can design, install, test and commission any traffic signal or ITS scheme from start to finish. Utilising our consultancy expertise, a full project design, can be completed which includes savings designed in the installation procedure. Ensuring cost savings across the whole project.

TotalSignals package offers a unique 'Quick Win' design & build opportunity, where we can complete a scheme within 3 weeks from inception to site acceptance, all at an agreed cost – so no hidden extras.
